

2025 BIG PRICE GUIDE - €

INDEX

1. Units: Specifications & Pricing	
Small Job Applications	6 - 9
Fine Finish Applications	10 - 13
Professional Airless Applications	14 - 23
Texture Applications	24 - 35
Heavy Duty Applications	36 - 41
Professional Cleaning Applications	42 - 43
Pavement & Marking	44 - 49
Surface Preparation	50 - 51
2. Accessories: Specifications & Pricing	
Small Job Applications	54 - 57
Fine Finish Applications	58 - 62
Professional Airless Applications	63 - 87
Texture Applications	88 - 95
Heavy Duty Applications	96 - 97
Professional Cleaning Applications	98 - 99
General Parts	100 - 101
3. Tips: Specifications & Pricing	
Tip Selection Guide	102 - 107
Fine Finish Low Pressure Tips	108 - 109
Rac® X Tips	110 - 111
Flat Tips	112 - 113
Airless Tips	114
Cleaning Tips	115
4. Warranty	
Warranty overview	116 - 119
5. Support Material	
Commercial literature & service support	120 - 125

UNITS

SPECIFICATIONS & PRICING

The ultimate quick reference overview!

Compare technical specifications, technologies featured as well as the actual composition list of all products within a certain application group - all in 1 table!

For larger jobs, with fine finish quality, the 1-liter cup might cause fatigue after hours of spraying. ProComp™ can make your work a lot lighter and more comfortable as this extra external compressor makes it possible to separate the material from the gun. The powerful compressor attaches to any HVLP TurboForce™ sprayer: it takes only a few seconds without any tools. No controls (kits available for manual settings)

OPTIMIZE FLOW AND PRESSURE
When extending your hose length (over 15 m), it is always recommended to increase your hose diameter. Larger ID reduces friction.

AIRLESS (AIR-ASSISTED) HOSES

Graco's JetRoller™ is the perfect solution for contractors looking for a flexible lightweight tool designed to dramatically speed up their paint roller projects. It combines the efficiency of airless spraying with the benefits of a rolled finish in a design that virtually eliminates over spray.

JETROLLER

PART NUMBER	DESCRIPTION	EURO
24V490	JETROLLER W/ 0.5M EXTENSION & INLINE GUN, 18CM FRAME, CLEANSHOT, RAC X GUARD & 515 TIP	€ 846,00
24V491	JETROLLER EURO, 0.5M EXTENSION, INLINE GUN, 25CM FRAME, CLEANSHOT, RAC X GUARD & 721 TIP	€ 846,00
24W128	JETROLLER EURO, 0.5M EXTENSION, INLINE GUN, 45CM FRAME, CLEANSHOT, RAC X GUARD & WR1223 TIP	€ 1272,00
24V492	JETROLLER W/ 0.5M EXTENSION, 18CM FRAME, CLEANSHOT, RAC X GUARD & 515 TIP	€ 675,00
24V493	JETROLLER W/ 0.5M EXTENSION, 25CM FRAME, CLEANSHOT, RAC X GUARD & 721	€ 675,00
24V829	FRAME JETROLLER, 9"	€ 163,00
24V830	FRAME JETROLLER, 18CM	€ 163,00
24V831	FRAME JETROLLER, 25CM	€ 163,00
24V832	EXTENSION JETROLLER FRAME	€ 122,00

On smaller jobs, if conditions such as wind prevent spraying and when an airless finish quality is not required, rolling paint is the alternative.

	224398	ADAPTER 1/8" TO 7/8" FOR HD EXTENSIONS	€ 148,00

OPTIMIZE FINISH QUALITY

In a standard airless system, the paint passes through 3 filters before atomisation: inlet screen, pump filter and the gun filter.
The first filter is the biggest, the last one, the smallest.

OPTIMIZE PRODUCTIVITY – feeds the pump using gravity.
Benefits when using thick materials such as plasters and fillers.
Large capacity enables working for longer periods of time before refilling.

TIPS

Sorted per type of tip,
including all available sizes

1. WHAT DOES A TIP TELL YOU? CRACKING THE CODE

The **colour** tells you which **application** you can use the tip for

-  For fine finish applications with thin material at the **lowest pressure**
-  For every interior and exterior paint job at the **lowest pressure**
-  For wall painting and spraying in general
-  For thin plastering and less fluid materials
-  For protective coatings – up to 500 bar
-  For marking and striping applications

5 The **first number** indicates the **fan width** of the tip

The first digit of the code, when multiplied by 5, tells you the fan width of the tip in cm when sprayed at a distance of 30 cm from the surface.

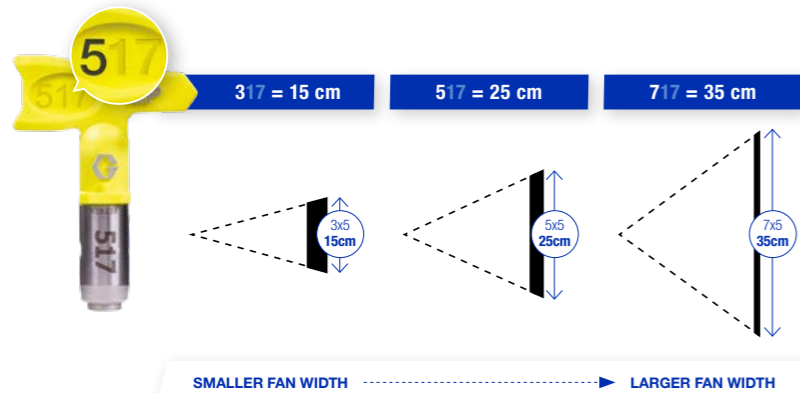

$$5 \times 5 = 25 \text{ cm}$$

17 The **last two numbers** indicate the **material output** of the tip

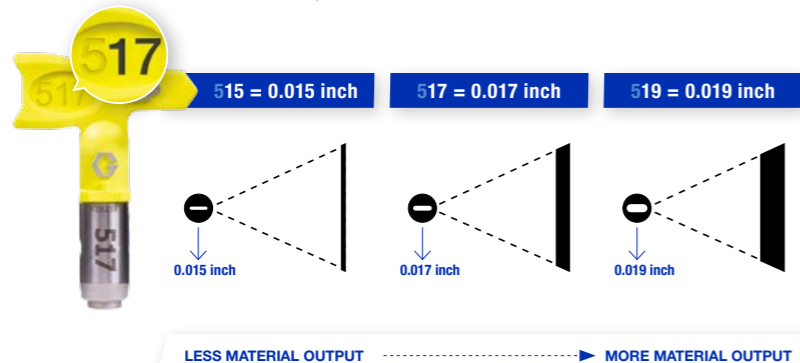

The last two digits show the size of the spray orifice, indicated in one thousands of an inch. The higher the number, the greater the flow with which you can spray.

17' matches an orifice of 0.017 inch

2. THE HIGHER THE FIRST NUMBER, THE LARGER THE FAN WIDTH

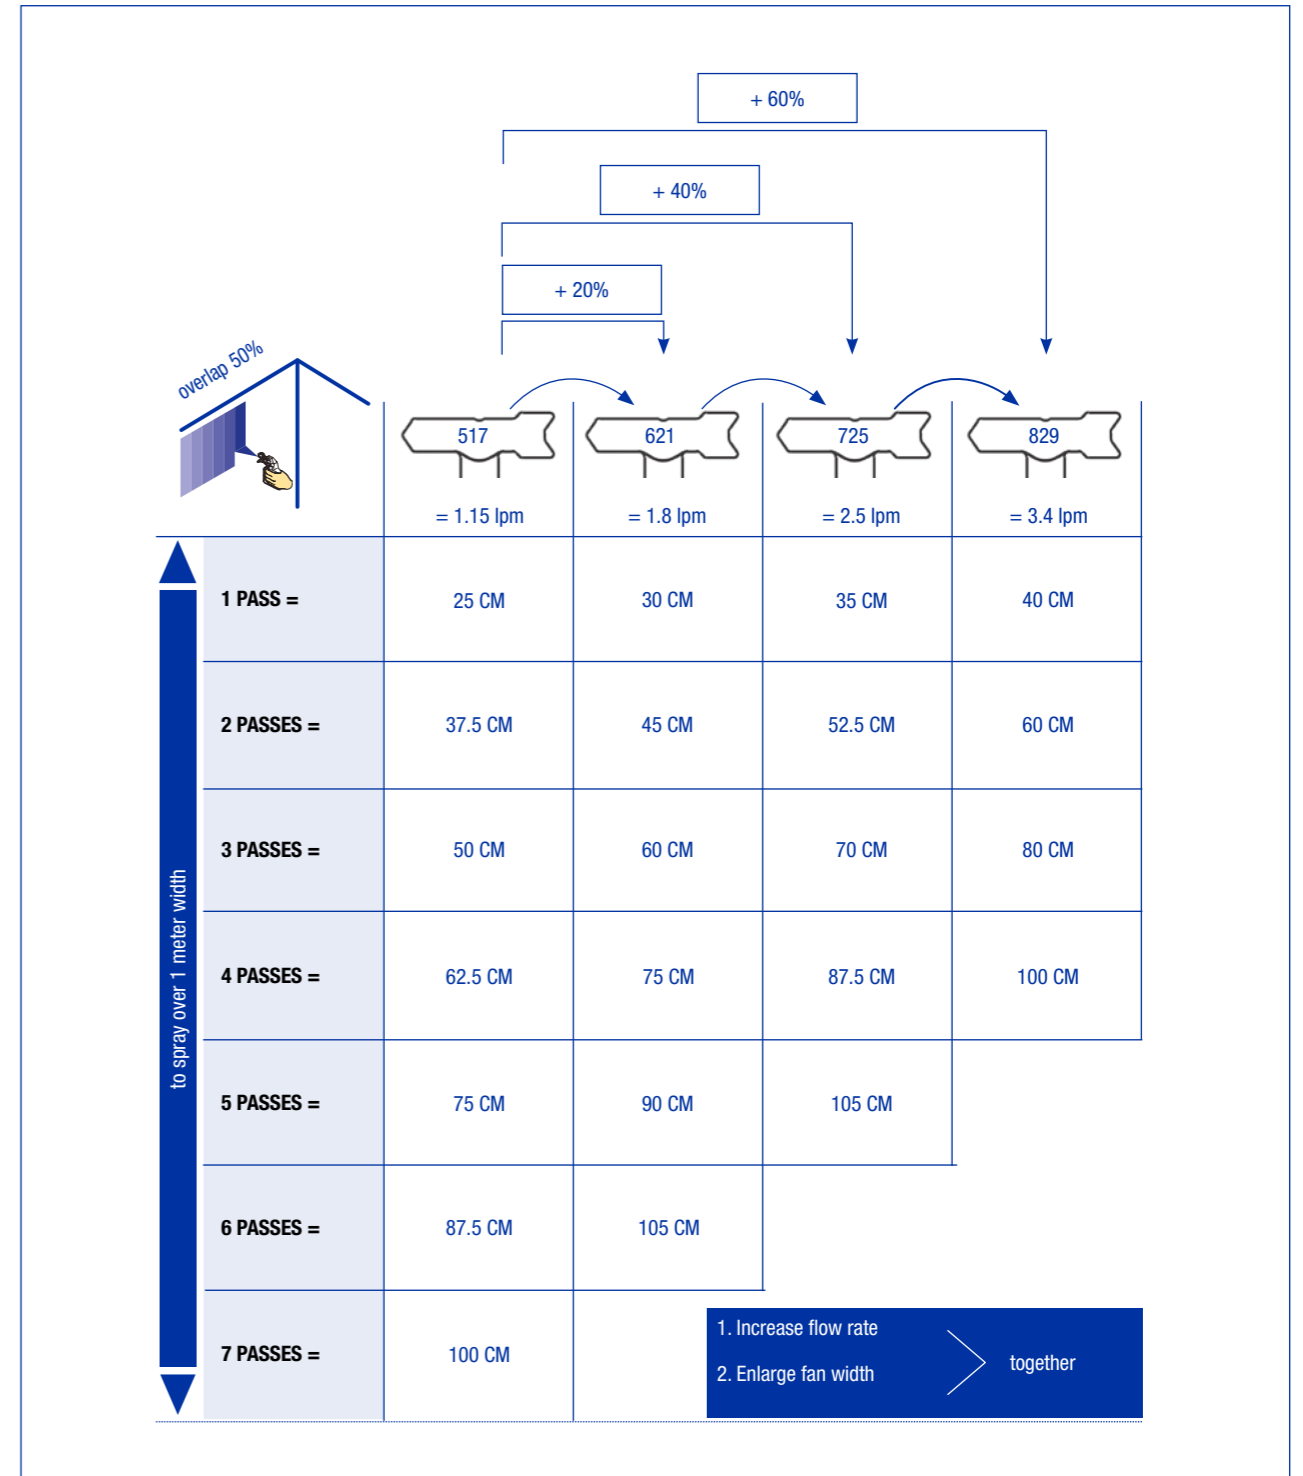

3. THE HIGHER THE LAST TWO NUMBERS, THE HIGHER THE MATERIAL OUTPUT

graco.com/tip

4. INCREASING PRODUCTIVITY WITH TIPS

TIP SELECTION GUIDE

5. A TIP ON TIPS

WHAT IS TIP WEAR?

1 + 2

FAN WIDTH DECREASES
= more passes necessary
= more labour

ORIFICE SIZE INCREASES
= more paint comes out
= more material cost

=

TWICE THE LABOUR!
+ 30% More paint for the same surface!

WHAT HAPPENS WHEN A TIP GETS WORN OUT?

Piston work pressure and abrasive material are the two main causes of worn-out tips.

The fan width decreases:
> More spray movements are necessary
= more work

Greater tip orifice:
> More paint comes out of the piston
= more costs for materials

twice as much work
+ 30% more paint for the same surface

BREAKTHROUGH LOW PRESSURE SMARTTIP™ TECHNOLOGY, ENGINEERED TO DELIVER THE INDUSTRY'S BEST FINISH!

Featuring the patented Graco RAC® X Tip with **SMARTTIP™ TECHNOLOGY** and exclusive internal tip geometry which delivers the industry's best finish at the lowest airless spray pressure!

BREAKTHROUGH ATOMIZATION

- Ability to spray at low pressures without tails
- Better finish at all pressures – works well with hard to atomize Low VOC materials

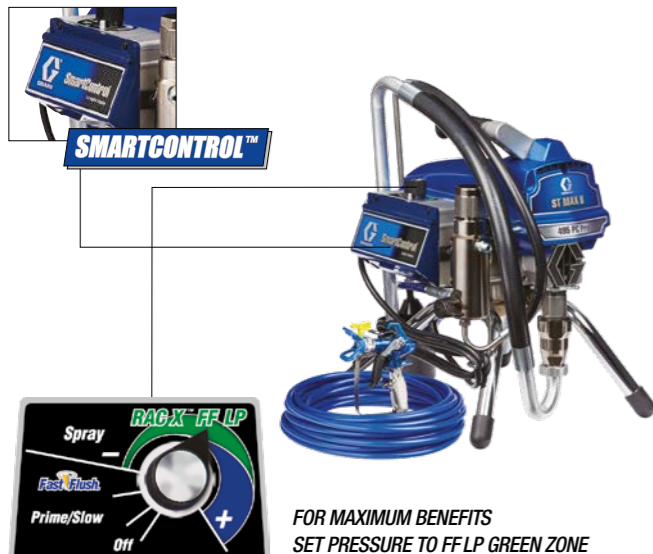

BREAKTHROUGH RELIABILITY

- Longer tip life when used at low pressure
- Less stress and strain on the sprayer

BREAKTHROUGH VERSATILITY

- Longer hose lengths
- Smaller diameter hose

SMARTTIP™ TECHNOLOGY is designed to work with Graco's exclusive **SMARTCONTROL™ PRESSURE MANAGEMENT SYSTEM** to deliver a superior spray fan without pressure fluctuations – at all spraying pressures!

LOW PRESSURE TECHNOLOGY EXTENDED TO LARGER TIP SIZES!

WEAR ITEMS			Graco does not cover wear items: tips, filters, sleeves, rods, packings, repair kits, seats, balls, brushes, dies,...
OTHER WARRANTIES			Components not manufactured by Graco are covered by their own warranties: gasoline engines, hoses, water pumps and batteries. All Graco products are covered by a one year warranty period against manufacturing defects. Consult our "Blue Book" (Form No. B0170) for complete detailed information on Graco's policies (warranty, freight, returns, etc.).

* For units sold as of 2019.

WHAT IS THE GRACO PARTNER PORTAL?

The Partner Portal is a global tool that allows you to conduct business with Graco seamlessly. It provides secure online access to product information like current pricing, and availability, order placement, shipping status, and much more.

Features & Benefits

- > Place orders
- > View list price, net price, product availability, and order status
- > Manage your account balance
- > View, modify or submit warranty claims
- > Provide additional users access to your Graco account
- > Search for literature and instruction manuals
- > Compare products
- > Connect with Graco anytime, using your mobile device or computer

What's changed from CIS?

- > **Mobile Friendly:** seamless user experience on mobile devices.
- > **User Management:** granular user permissions allow more users access to the site.
- > **Graco bot:** 24/7 support through the chat option
- > **Order products:** order directly from product pages via the cart
- > **Orders & Warranty:** quick order import process and improved warranty process, allowing attachments to be uploaded directly into the claim
- > **Search:** enhanced search and access to manuals and brochures.
- > **Shop & Compare:** browsable product catalog and product comparison tool.
- > **Visual Design:** branded to match graco.com

OUR PROMISE TO YOU

Since 1926, **innovation**, **quality** and **A+ service** have been at the centre of Graco.

Experience innovation

Our focus on innovation results in products and equipment that lead the industry with technologically-advanced features, pioneering design, high performance and unparalleled reliability. In short, innovation is how you get better products!

Building quality

You are investing in high-quality products built to last for years of reliable service. Moreover, we partner with our customers to better understand how you're deploying our products in the field, then use your experiences to improve performance and durability.

A+ service, every time

You'll see A+ Service in action when you contact any of our support services options no matter where you are in the world. We'll listen to your situation and work methodically to resolve it as quickly as we can. We are guided by a mindset of integrity and a customer service view centred on collaboration and relationships, not transactions.

We are here to answer questions and help address your needs.
